# EVA LIU

€ PORTFOLIO: <http://evaliu.net>

## MY SKILLS

**P**assionate **Designer**.

**N**atural flair for **user interface design** and interactive **information visualization** with **human perception theories**.

**P**roficient with Adobe Illustrator & Photoshop. Solid HTML/CSS hand coding skills, good understanding of Javascript and AJAX, exposed to jQuery.

**G**reat **team player** and **problem solver**.

**D**esired and fast **Learner**.

## WORK

**Web/UI Designer**  
JXT CONSULTING P/C  
2010 - 2011

Participating in design meetings to discuss web function and style expectation with clients; Proposing design concepts with optimized user experience; Making graphic and interactive UI design proof and get back to clients with discussion about the details in designs; Assisting front end developers build design into beta site; Post checking on graphics, functions and interactions.

Mob: 0431 628 987 | [morganaancone@optusnet.com.au](mailto:morganaancone@optusnet.com.au)

**Web Designer**  
Creative Helix Pty Ltd  
2009 - 2010

Producing layout designs and graphics polishing; Transforming static design/wireframes to HTML pages; Involved in cross-browser testing and search engine optimization (SEO).

**Visualization Designer**  
Capital Markets CRC Limited  
2010

I was undertaking an ambient visualization project for CMCRC to visualize the share market movement. The visualization system embeds key information of share market into a paint, and animates the changes. I participated the design of the visualization and implemented the computer program.

**Visualization Research Project**  
Master by Research  
University of Sydney  
2008 - 2010

My research topic is to visualize and navigate massive image search results. Various information visualization techniques, as well as related knowledge (e.g. Human perception theories, etc) have been studied to produce intuitive graph formats and interactions to reveal key information. User experiments evaluation was carried out for the project.
